This stunning property is for sale by the builder, Traton Homes. The home has more upgrades than any comparable actively listed in the area, fenced back yard, granite surfaces, swim/tennis neighborhood right on the silver comet trail. The framing components of this home were constructed in an off-site, climate-controlled facility without interference from rain, this allows for extensive quality control during the construction process. In addition, the wood used to build this home has minimal exposure to the elements and is less likely to warp over time. This property is truly a must see!
